050380 **[Public Hearing - Appeal of Categorical Exemption for No.1 La Avanzada Street (aka 250 Palo Alto Avenue)]**

Hearing of persons interested in or objecting to the decision of the Planning Department dated February 10, 2005, Case No. 2005.0021E, exempting from environmental review the proposed installation of a new low-power FM antenna for KNGY FM-92.7, four satellite receive-only dishes for KPIX TV-5 and an emergency generator for KBHK TV-44. The project is located at No.1 La Avanzada Street (aka 250 Palo Alto Avenue), on Mount Sutro and is zoned RH-1(D). The individual components are described below.

Low-Power FM Antenna: KNGY is an existing radio station that now broadcasts from the top of a residential building at 1101 Green Street on Russian Hill. The proposed project would relocate KNGY from its current location by allowing the installation of a new low-power FM antenna on Sutro Tower. KNGY currently operates at 3,600 watts of effective radiated power. The new antenna will operate at 510 watts of effective radiated power. The antenna will be approximately 15 feet high by 5 feet wide by 2 feet deep, and will be mounted on the north leg of Sutro Tower at Level 3, approximately 380 feet above ground using an existing set of brackets installed to support a previously approved antenna. No alteration to the existing equipment building at the base of Sutro Tower would be required. (Appellants: Siu Ling Chen for Midtown Terrace Homeowner's Association, Liaison to Sutro Tower and Doris Linnenbach for Twin Peaks Improvement Association, Liaison to Sutro Tower.)

050481 [Public Hearing - Appeal of Certification of Determination of Exemption/Exclusion from Environmental Review for San Francisco Bicycle Plan Policy Framework]

Hearing of persons interested in or objecting to the decision of the Planning Department dated January 11, 2005, Case No. 2004.0420E, exempting from environmental review the proposed project regarding revision of the 1997 San Francisco Bicycle Plan. There are two major components to the San

Francisco Bicycle Plan update - the Policy Framework and the Network Improvement Document. The San Francisco Bicycle Plan Policy Framework is a public policy document that provides an overview of the policies and components of a successful bicycle program. The San Francisco Bicycle Framework presents changes to the 1997 Plan by emphasizing updates to: bicycle policy and chapter topics presented in the 1997 Plan; incorporation of new design guidelines for a wide range of bicycle facilities; and a "blueprint" for potential expansion and refinement of the existing Bicycle Network. The San Francisco Bicycle Plan Policy Framework has seven goals and objectives: (1) increase safe bicycle use, (2) refine and expand the existing bicycle route network, (3) ensure plentiful, high-quality bicycle parking to complement the bicycle route network, (4) adopt bicycle-friendly practices and policies, (5) promote safe bicycling, (6) increase enforcement of bicycle-related violations, and (7) prioritize and increase bicycle funding.

The second component of the overall Bicycle Plan is the Network Improvement Document, which identifies potential projects to improve bicycle transportation throughout San Francisco. The Network Improvement Document will be reviewed under a separate environmental review. (Appellants: Mary Miles and Coalition for Adequate Review [CFAR] and Ninety-nine Percent)

SPECIAL ORDER 4:00 P.M.

050380 **[Public Hearing - Appeal of Categorical Exemption for No.1 La Avanzada Street (aka 250 Palo Alto Avenue)]**

Hearing of persons interested in or objecting to the decision of the Planning Department dated February 10, 2005, Case No. 2005.0021E, exempting from environmental review the proposed installation of a new low-power FM antenna for KNGY FM-92.7, four satellite receive-only dishes for KPIX TV-5 and an emergency generator for KBHK TV-44. The project is located at No.1 La Avanzada Street (aka 250 Palo Alto Avenue), on Mount Sutro and is zoned RH-1(D). The individual components are described below.

Low-Power FM Antenna: KNGY is an existing radio station that now broadcasts from the top of a residential building at 1101 Green Street on Russian Hill. The proposed project would relocate KNGY from its current location by allowing the installation of a new low-power FM antenna on Sutro Tower. KNGY currently operates at 3,600 watts of effective radiated power. The new antenna will operate at 510 watts of effective radiated power. The antenna will be approximately 15 feet high by 5 feet wide by 2 feet deep, and will be mounted on the north leg of Sutro Tower at Level 3, approximately 380 feet above ground using an existing set of brackets installed to support a previously approved antenna. No alteration to the existing equipment building at the base of Sutro Tower would be required.

(Appellants: Siu Ling Chen for Midtown Terrace Homeowner's Association, Liaison to Sutro Tower and Doris Linnenbach for Twin Peaks Improvement Association, Liaison to Sutro Tower.)

the proposal to demolish the one-story garage located in the front setback area and add an approximately 1,953-square foot horizontal addition in the rear of the single-family building. The proposed addition would result in an approximately 5,876-square foot, two-story over garage single-family residential structure. The height of the structure would not change. The proposed alteration would include major interior alterations and a new two-car tandem-parking garage in the basement of the existing structure. The project would provide the required 45% rear yard requirement, which is approximately 34'-9". The existing building on the project site was constructed around 1898 and is listed in HERE TODAY, and as such, is considered an historical resource under the California Environmental Quality Act (CEQA). The existing building is also listed in the 1976 Architectural Survey conducted by the San Francisco Planning Department.
